I focus on resolving business-related disputes, in particular in the area of corporate, commercial, tax and insolvency law. I further advise and represent my clients in insurance-related cases such as D&O and professional negligence cases.

I have particular expertise in the processing of "mass proceedings", i.e. enforcement and defence of a multitude of similar cases. My clients are national and international companies in particular in the technological, financial and automotive sectors as well as investment funds. I also represent insurers, law firms and tax accountants.

I represent my clients with enthusiasm and courage. I fight for my clients rights and lead their way to a positive solution. Therefore, I use my negotiation experience earned from more than 1,500 court proceedings. JUVE mentions me as recommended lawyer for dispute resolution.

I advise my clients in German, English and French.
