I started working in the IP Enforcement and Litigation team with Fieldfisher in 2017.

Prior to joining Fieldfisher, I worked in an international law firm and in a boutique law firm in the field of intellectual property. After my graduation from the universities of Bayreuth and Birmingham (UK), I started my legal clerkship in Düsseldorf during which I worked in a large international law firm. In autumn 2015 I received the doctorate from the University of Bayreuth on my thesis "Intellectual Property and Mergers and Acquisitions".

I am member of the German Association for the Protection of Intellectual Property (GRUR).

I advise my clients in German and English.
