I advise clients across a range of sectors, with a particular focus on technology and media, having spent time in-house on secondment at a major digital terrestrial television platform.

I have broad experience assisting acquirers and vendors across a range of commercial matters, including software development and licensing, cloud services agreements, technology and software procurement, distribution and e-commerce and privacy. I also lead the firm's sustainability programme and am an active member of the Environment Committee.

I trained at Fieldfisher, during which time I worked in the Public and Regulatory, Technology and Outsourcing and Intellectual Property teams. I also spent time on secondment with Viacom, advising on commercial and advertising matters across the MTV, Nickelodeon and Comedy Central brands.

Having previously lived in Germany, I have a basic understanding of German. I have a degree in Law and Criminology from the University of Sheffield and in my spare time, enjoy travelling, photography and cycling.
