Prior to joining the financial regulatory team at Fieldfisher, I worked in Fieldfisher's banking team for four years where I gained substantial experience in emerging market finance transactions. This included financing numerous projects in Europe, Russia, Azerbaijan, Kazakhstan and DRC. I also worked on energy finance transactions, particularly in relation to the financing of large-scale oil and gas projects.

I qualified with the Financial Regulatory team in September 2020 where I have worked on a broad range of UK and EU financial regulation matters.

In my spare time, I enjoy playing football and watching Aston Villa!
