

OF COUNSEL

Alejandro Fernández

I am an active airline pilot and a flight and ground instructor, and an air law teacher with more than 10 years of operational experience with different flagship airlines and schools. This aspect enables me to have more extensive and precise knowledge in the field, which allows me to understand the idiosyncrasy and issues of companies and businesses in the aeronautical sector and thus face the proposed challenges with greater guarantees.

As a lawyer, I consider myself a committed, attentive and empathetic person who professes the same values.

I have more than 10 years of experience as a lawyer in different international firms specialising in the fields of aeronautical and labour law in general (litigation, contracting, negotiation of agreements, restructuring, Regulatory files, sanctions, recurring advice, etc.)

I have had the opportunity to advise, among others, airlines and aeronautical companies such as Spanair, as well as international schools and airline job companies.
