I provide commercial and strategic advice to clients across a wide range of sectors on EU regulatory compliance and privacy issues affecting new and emerging technologies. I have experience working with large multinationals, start-ups and public organisations. I am a member of the International Association of Privacy Professionals (IAPP) and a Certified Information Privacy Professional in the U.S. (CIPP/US). I am admitted to practice in Spain and the State Bar of California.

Before joining Fieldfisher, I worked as an associate at a leading European law firm, and did a secondment at a large multinational corporation supporting their privacy and digital legal services teams.
