My work in the Restructuring and Insolvency group involves both individual and corporate insolvencies, acting mainly for office holders and creditors (both secured and unsecured) to recover and realise assets for the benefit of creditors. I act on both contentious and non-contentious matters.

My experience covers the full range of insolvency and restructuring work, from distressed sale/purchases and trading insolvencies to pursuing actions against directors and multimillion-pound frauds as well as advisory work.

My insolvency experience has allowed me to work across a variety of sectors including sustainable energy retail, education, hotels and leisure and healthcare.

I have keen attention to detail and provide client focused, strategic advice that is results driven.

I have been recognised in Chambers & Partners and described as "technically strong and determined" and that I "bring(s) a refreshingly commercial approach to insolvency work, excellent technical knowledge and a real ability to get to the core of the problem."

What others say...

“ Carly brings a refreshingly commercial approach to insolvency work, excellent technical knowledge and a real ability to get to the core of the problem

”

DIRECTOR, RESTRUCTURING AND INSOLVENCY

Carly Schiff

“ Having worked with Carly on a number of instructions, I have every confidence in her legal and strategic advice. Client focused, results driven

”
