### LOCATIONS

[Germany](#)

I studied law at the University of Hamburg, where I focused on the law relating to information and communication. I am both CIPP/E and CIPM certified, and a certified Data Protection Officer (TÜV®) and a certified Data Protection Auditor (TÜV®).

I have practical experience through several internships and legal clerkships in law firms that specialise in IT, copyright, intellectual property and media law. Furthermore, I spent three months working in an international commercial law firm in Sydney, Australia, specialising in data protection and trademark law.

I advise tech companies and digital media firms on contract, e-commerce, IT law and Data Protection compliance. I am happy to advise my clients in both German and English.

In my spare time, I like to improve my programming skills and I do a lot of sports.
