[China](#)

My particular expertise is advising clients domestically and internationally on [disputes resolution](#), and I am a litigator with over 5 years' experience.

I have involved in over 100 lawsuits, mainly tackling cases of trading contract disputes, construction contract disputes, tort disputes, labor and personnel disputes, an area in which I have gained in-depth and extensive experience. The meaningful thing as a lawyer is to use my professional knowledge to assist my clients in striving for the greatest benefit in each case.

Prior to joining Fieldfisher, I served as a Clerk of Law & Regulation in a civil official, and worked at a well-known law firm in China.

I have a bachelor's degree in law from South China Normal University.

My mother tongue is Mandarin Chinese, Cantonese and I am also fluent in English.
