LOCATIONS

France

I appear before civil and commercial Courts and Courts of Appeals in France. This includes defining the strategy with the clients, drafting the submissions, attending the expert meetings and pleading the cases.

I was named "Lawyer of the Year" in Healthcare Law for 2014/2015 and for 2020/2021 by the American publication Best Lawyers® published in France in Les Echos. Only one lawyer is named "Lawyer of the Year" in each country and in each practice area every year.

I have also been ranked among the best lawyers in France by Best Lawyers® for several years, in particular for Biotechnologies and Healthcare Law. I am ranked as 'excellent' in product liability and as 'highly regarded' in industrial risks by the French publication Decideurs Strategie Finance Droit.

I taught at the Ecole Nationale des Assurances (National School of Insurance) as well as at the University of Paris V Descartes and I have taught company law at the ESSEC Business School for two years.

I have a strong university background (PhD from the University of Aix en Provence - magna cum laude), and was admitted to the Paris Bar with honors.

My native language is French.
