I advise start-ups and large multinationals organisations on a range of European and international privacy-related matters and work with clients in a variety of sectors including marketing, security, and technologies.

I am an expert in advising US businesses on their successful completion of their global privacy compliance programs and my clients appreciate my pragmatic approach combined with my deep knowledge of US and EU privacy laws.

I have recently helped one of our clients on a critical acquisition worth over \$1 billion and enabled many clients to achieve their marketing and privacy objectives.

In addition to a Master's Degree in Business and Tax Law received in France, I earned a Master of Laws (LL.M.) degree from the University of California, Berkeley, School of Law. I successfully passed the Paris and California Bar examinations and I am an active member of the California Bar.

Before joining Fieldfisher, I completed my training in an international law firm in Paris and worked in-house at a multinational telecommunication company and at a fintech start-up in San Francisco.

I speak both French and English fluently.
