In the event a lawsuit is necessary to achieve the client's economic aims, my clients value my enthusiasm with which I fight for them. I like to "crack the hardest nuts" in challenging cases.

I support management decisions with a dynamic litigation risk analysis to evaluate the economic risks and rewards of a dispute.

Due to my IT and finance experience, I am able to advise my respective clients in an efficient way even in complex matters.

I advise my clients in German and English.

I studied at the Ludwig-Maximilians-University in Munich and completed my training as a "business mediator" at the Munich Center for Dispute Resolution. I discovered my passion for dispute resolution during my studies due to my participation in the Willem C. Vis Arbitration Moot Court.

In my spare time I enjoy travelling and reading non-fiction books.
