Before joining Fieldfisher I have worked in key large scale corporate investigation roles at the European Commission in Brussels and at two leading financial institutions in London and Singapore.

Corporate & Regulatory Investigations

As a member of Fieldfisher's Investigations Hub I regularly assist [financial institutions](#) and other corporate clients on internal and regulatory investigations covering;

financial and white-collar crime, anti-money laundering, bribery and corruption, fraud investigations and governance/senior manager accountability issues. I also advise clients on the effective management of legal risk around regulatory compliance, whistleblowing and corporate governance and culture.

Competition & Antitrust

Over the past decade I represented financial institutions and large corporations in landmark competition investigations across the globe, including the airfreight, auto-parts, foreign exchange rates, credit default swaps and loan syndication investigations. I also advise multinationals, corporates and financial institutions on merger filings and other competition aspects of mergers, acquisitions, joint-ventures, strategic alliances and restructurings. I also lead Fieldfisher's merger arbitrage desk where we work closely with hedge funds, private equity and other investment firms on merger arbitrage opportunities across the globe.

I work with clients across a broad range of industries with particular focus on regulated sectors: financial services, energy, infrastructure, telecoms, transports, technology, retail, distribution and food & beverage.

With experience of, and contacts in, the Middle East and Africa, I am part of Fieldfisher's [MENA Group](#) that includes more than 20 bi-lingual speakers and lawyers qualified to practice in the Dubai International Financial Centre Courts.
