The focus of my practice is primarily on transactional work including M&A, leveraged acquisitions, joint venture projects, private equity transactions, private company re-organisations, and re-financings.

I have led transactions for a variety of multinational corporates as well as for high net worth individuals. The transactions are often international in nature. I have acted for clients in a wide range of sectors from logistics, pharmaceuticals, financial services to leisure.

I also advise on contractual matters and assist clients in managing risks inherent in supply/purchase.
