I have particular expertise in mobile payments including advising on merchant acquiring, contactless payments and remittance via mobile projects. I have acted for retail banks, mobile network operators and retail businesses on a range of mobile payments, merchant acquiring and e-money arrangements.

My telecoms experience includes acting on a range of MVNO arrangements, 3G and 2G network sharing deals, network roll-out and network acquisition projects and related regulatory advice.

My outsourcing experience includes WAN, desktop, help desk, applications development and support and all other forms of technology outsourcing, telecoms network outsourcing; I advise on major systems procurements, telecoms infrastructure projects and other technology related projects. I regularly advise on m-commerce, data privacy, cloud computing and other emerging legal issues.

What others say...
