I advise on structured derivatives and securities financing in emerging and developed markets as well credit, equity, fund, commodity and property derivatives, both OTC and exchange-traded. I also provide advice on netting, collateral, defaults, restructurings and disputes.

I also co-head our financial services sector group.

As one of the founding partners of our Condor alternative legal solutions platform, I continue to be actively involved in structuring and delivering ALS programmes for clients across Fieldfisher's focus sectors.

What others say...

“ Guy Usher leads the firm's derivatives work and has deep experience operating in the space ”

Chambers and Partners UK 2019
