[Italy](#)

I am very experienced in tax consultancy and tax compliance work for large industrial and financial multinational groups with Italian subsidiaries. I also deal with tax consultancy and tax compliance for Italian-owned companies (both listed and non-listed companies). I am problem-solving oriented and inclined to detect client's needs.

I am an expert in IAS/IFRS taxation. I have accumulated significant experience in international transactions (dividend, interest and royalty flows, transaction with Italian black-listed countries and transfer pricing matters), due diligence and reorganisations.

I perform the role of statutory auditor for Italian companies.

I have been a certified chartered accountant since 1995. Before joining Fieldfisher, I spent seven years at one of the Big Four firms.

I advise my clients in Italian and English.
