📍 LOCATIONS

United Kingdom

I was called to the Bar and worked as a barristers' assistant before joining Fieldfisher as a paralegal in 2019. I am currently undertaking a Solicitor Graduate Apprenticeship under the supervision of Jill Greenfield.

I have worked closely with Jill as her paralegal and act exclusively for Claimants who have suffered life-changing injuries. I understand the importance of early, effective and consistent rehabilitation as well as financial support for our clients and their families. I assist clients who have suffered **brain injury**, **spinal cord injury**, **amputation**, serious orthopaedic injury and **fatal injury**. Whilst a large proportion of the individuals I work with have been injured on the roads, I also work with clients who have been victims of **sexual assault** as well as victims of the Westminster Bridge and Finsbury Park Mosque terrorist atrocities.

Working alongside Jill Greenfield I am also developing my own caseload and have assisted Jennifer Buchanan, Dushal Mehta, Harvinder Kaur and Claire Glasgow in their high value practices.

I am committed to the work I do and work closely with clients and their families ensuring that they are informed and supported throughout what is inevitably a very difficult time in their lives.
