I have experience working on high profile public inquiries and independent investigations, including managing the disclosure process, ensuring compliance with data protection obligations and drafting warning letters and requests for witness statements. I also have experience in advising clients who become core participants to public inquiries or interested persons to inquests.

During my training at Fieldfisher, I gained experience in public, regulatory and competition law, intellectual property litigation, real estate, and commercial contracts whilst on secondment to BBC Studios.

I have an Upper Second Class Honours Degree in Law from the University of Bristol, and a Master of Laws (Distinction) from the University of Law.
